New records format available

Facebook now provides records in two different formats. In addition to PDF, you now have the option to download a .zip archive of your records. The archive format allows you to view records organized by file type, which may allow for easier searching and parsing. Archive format records can be authenticated using a hash, a unique alphanumeric identifier.

The archive format is recommended when your legal process contains a request for video or other large media files. Please note that XML is not available at this time. The PDF format option is still available for all records.
